Subject: MICROSOFT SETTLEMENT

I am an admirer and stockholder of Microsoft Corporation, whose products have let me produce high performance work and are better than those of their competitors, some of whose tools I've tried.

Respectfully, I request that the U.S. Department of Justice accept a settlement with Microsoft, and recommend that the individual states who have chosen not to accept it re-consider.

I also have a personal opinion on the recent AOL lawsuit against Microsoft over Netscape - this is an old story and, you know, AOL has sour grapes in an area where Microsoft has superior service and coverage. I think AOL deserves to be countersued for harassment of Microsoft and should not be allowed to use the legal system to attack its competitor which it is unable to surpass in any real business or technical area.

Thank you.
